

The charge to the Technical Subcommittee is to:

- Continue to advance the network to assure the highest possible quality and service standards that are the foundation of the network.
- Develop specifications for a service platform for the delivery of programs based on NSHEC and individual institution priorities.
- Create recommendations on the purchase/contracting for equipment, site design, installation/remodeling, and the line carrier, including the NSHEC ATM Network.
- Develop the most effective design and support system for interconnections between institutions and with other consortia.
- Plan for monitoring and evaluating system use; problem identification of and recommended solutions to issues and problems related to the design, purchase, and installation of the network.
- Oversee and troubleshoot operations of NSHEC Interactive Video Network and NSHEC ATM Network
